

"The Nonprofit Center of the Berkshires has been very helpful to our fledgling organization. Liana's knowledge of the local nonprofit landscape and willingness to share her expertise are the perfect complement to NPC's list of valuable programs and services. In just a few short months, our membership has already paid for itself!" – *Eugenie Sills/Clinton Church Restoration Advisory Board*

"Since becoming a member of NPC and working with Liana I have found a road map and a guide to start me on my way to becoming connected, to learning about the tools and resources that are out there that I can utilize to become a more effective leader within my own organization and beyond."  
– *Rachel Kalin/Oakdale Foundation*

I had been working in the nonprofit world for a long time and decided on a whim to get in touch with Liana to see if there was something I could learn from her. She spent a total of 3 hours with us over a month period and we learned just what we needed. She evaluated who we were and what we were trying to accomplish and gave us a prescription on how to move forward." – *Karen W. Smith  
Sawa Sawa Foundation, Inc.*

"The NPC has already proven itself as a tremendous resource in the short two years since it was founded. As the only full-time employee at a small nonprofit, the NPC is my go-to for references to trusted service providers and my primary source for professional development opportunities."  
– *NPC Member Since 2016*
