Nonprofit Center of the Berkshires is a godsend to any nonprofit in the Berkshires. As a new nonprofit, we have consulted Liana Toscanini, the Executive Director of Nonprofit Center of the Berkshires, on multiple occasions. She is a walking textbook of invaluable information whether it be about funding, legal issues, accounting, connecting us up with other nonprofit partners, directing us towards foundations and grants or advising us on the myriad problems that arise as a result of being a new or old nonprofit. I cannot say enough good things about NPCB. They are an unbelievable resource. We are so lucky to have them!

As an agricultural service provider who works for a non-profit I have to field many requests and work on projects that take me in unexpected places. While I have expertise in my field, I am often dealing with things far outside of my knowledge-base. The Nonprofit Center of the Berkshires is an invaluable resource for me in those situations. Most recently I needed to engage the services of a web/app developer. I had no idea where to begin, luckily the Nonprofit Center has a list of IT specialists and web designers. Using that resource guide, I quickly engaged with several great companies with out spending a ton of time researching various options. It made my work flow much easier!
