connect, learn & grow!**

NPCBERKSHIRES.ORG

Welcome!

We hope you find this Nonprofit Resource Directory a handy, time-saving tool!

We're happy to be able to connect the very large nonprofit marketplace to this curated list of businesses (over 600 in all).

Connecting you to resources is part of our mission, but is by no means limited to this booklet. Reach out any time by email or phone for a referral.

And if we're missing an important resource, simply email info@npcberkshires.org to let us know.

We thank our directory sponsors and business supporters (whose listings you'll find bolded in the directory), as well as the Commonwealth and The Barr Foundation for helping to cover the cost of mailing this directory free to hundreds of Berkshire nonprofits. Special thanks to Graphic Designer Tina Sotis and researcher Maggie Goldsmith.

As a connector organization, we are interested in your feedback and stories. If this booklet is helpful to you, tell us about it by emailing info@npcberkshires.org.

Thank you!

Liana Toscanini
Executive Director

Adams Community Bank is more than just a financial institution (or bank) with which we do business. They continue to be a strong "community partner" of ours. Between financial support and advice, employee attendance at our events, and Board participation, we can count on our community partner to support BFAIR's mission.

SERVICES

Only In My Dreams Events LLC is a multi-award winning, full-service event planning company that is a certified LGBTQ business by the NGLCC. Whether you're planning an intimate affair or the year's biggest gala, we'll provide the attention and inspiration you need to see your event through from concept to creation. The most important component of the planning process is cultivating a shared vision and we will carefully glean the most important elements of your dream event during our initial meetings together. We help you plan weddings, parties, galas, birthdays, and anything else you can imagine! Galas for nonprofits are our specialty and owner and lead planner, Oskar Hallig has and MS in Nonprofit Management from the New School for Social Research in New York City.

“

Detail oriented, listened to what we wanted and needed and knocked it out of the park!

Oskar and Mike planned and executed our 25th anniversary party at the Colonial Theatre. They were very creative, listened to what we wanted, then provided it all and then some! For the very first time I did not stress about an event. Mike and Oskar also threw a donor party for our organization, and it was intimate, classy and fun!

I was captivated by Saint James Place. The acoustics are heavenly, and the architecture is stunning. With seating for 270, it is possibly the most exquisite small concert hall I've ever seen.

“

When our organization went to upgrade our aging database, Amy helped at every step along the way. She identified new systems that had the features we needed, guided us in evaluating options and making a final decision, and helped us set-up, clean and (re)organize 16 years' worth of data. Amy has proven time and again that she has those rare talents that combine technical skills and computer savvy with a deep understanding of and appreciation for donor relations and organization needs. —Alex, CATA

SERVICES

A 401(k) retirement plan designed especially for the state's nonprofit sector.

With a deep commitment to the nonprofit sector in the state, the Commonwealth of Massachusetts created the Massachusetts 401(k) CORE® Plan, a retirement plan specifically for small nonprofits with 20 or fewer employees at the time of adoption.

The CORE® Plan offers:

- Potentially lower costs for your organization
- Oversight and fiduciary support from the Office of the State Treasurer
- Protections under ERISA for all participating employees

I believe CORE is a valuable resource for Massachusetts nonprofits that employ staff and are looking for cost-effective ways to offer benefits with lasting value. We're impressed by the fact that CORE offers better customer service and lower fees than commercial competitors, as well as the backing of the Treasurer of the Commonwealth.

SERVICES

We provide organic marketing strategy including social media management & maintenance, website copy and messaging, email marketing, advertising campaign build outs from the ground up, and project-based services — strategic planning, project management; community engagement — for nonprofits and small-to-medium sized businesses. Always with integrity.

“
Nichole brought a calm, experienced perspective, a welcome sense of humor, and a skill set that we really needed and hugely benefited from. We were planning a multi-faceted, month-long event, and from the moment she came on board, Nichole brought value. As our Project Manager, she deftly handled budgets, schedules, communications, marketing, press and more, with the calmest energy, sense of humor (both qualities worth repeating, as they are critical traits to creating a spirited sense of team, and successfully navigating the unexpected challenges that will inevitably arise). Plus she has a superb vocabulary. I continually marveled at her ability to convey a mission, a request, a thought . . . always beautifully and succinctly expressed. Although our event is over, the organization has continued to engage Nichole as a consultant, because she is that good.
Hinda Bodinger, Co-chair of the Designer Showhouse at Cassilis Farm & Construct Center for Affordable Housing Board Secretary”

SERVICES

TL Phillips Consulting Services understands the value of thinking big—our approach focuses on long-term sustainability for organizations looking to achieve increased measurable impacts and improved customer outcomes. Provide customized consulting and training support in such areas as strategic plan management, resource development planning, board governance/development to non-profit and government organizations and associations to achieve their mission, vision and value propositions.

“Tom Phillips is a terrific presenter and a wealth of knowledge. I recently attended his one-day workshop “Leveraging Municipal and Nonprofit Assets to Achieve Improved Community Outcomes” through UCONN’s Public Sector and was impressed. He not only successfully conveyed the material to the attendees, but he also provided many specific tools and techniques to help government and nonprofit professionals improve their own organization’s results. As a leader in local government and nonprofit administration and public policy, Tom understands how nonprofits and municipalities can improve strategically and provides the tactics on how to achieve their goals. He understands how it all fits together and explains the information clearly in a dynamic fashion.”

The City of Pittsfield received \$40.6 million dollars in federal funding through the American Rescue Plan Act (ARPA). These funds were used to invest in people and places through shared community engagement, **including awarded grants to 38 nonprofit organizations serving Pittsfield residents.** The once-in-a-lifetime infusion of funds has transformed Pittsfield into a city of social and economic resiliency for everyone following the pandemic, especially for people who have been historically underserved, marginalized, and adversely affected by racial inequity and generational poverty. Pittsfield is also a place where people can live up to their greatest potential, achieve prosperity, and experience health, well-being and joy.

“

“People want to make investments that work. They know that if they make investments in collaboration with others, particularly when you’re serving people, that those investments are more likely to succeed,” said Rev. Denton. “The core funding from the city made it possible. We are very grateful for everything that the city has done.”
